### Life After the Holocaust: A Legacy of Survival, Memories and Triumph

#### Keeping the Voices Alive

Through interviews and archival photos, NEXT GENERATIONS' Oral Testimony Project expands students' understanding of the long-term consequences of the Holocaust for those who survived the Shoah as well as for their children and grandchildren.

The two-DVD set is a learning tool for students that documents the life encounters of children of Holocaust survivors as well as their parents in the aftermath of the Holocaust. It provides a first hand look at the effects of growing up in the shadows of the Holocaust and in building new lives.

Phase I, *After the Holocaust: Children of Holocaust Survivors and Their Parents*, focuses on the effects of the Holocaust on children of survivors, especially their struggles to understand the sorrow, loss and taboos that influenced their parents' behavior. Phase II, *After Liberation: Holocaust Survivors in the Displaced Persons Camps*, examines the difficult transition that many survivors made from liberation in Europe to resettlement elsewhere.

The set is designed for classroom use, with the interviews providing a focal point for discussion of survivors' recovery and integration into post war life. Each DVD is 15 minutes in length and is accompanied by a teacher guide.

*As witnesses to the eyewitnesses, it is NEXT GENERATIONS' unwavering commitment to educate future generations. We must carry the torch from generation to generation. This project of remembrance will keep the voices alive and honor our promise to NEVER FORGET.*
